Remarks/Arguments

Claim 3 is currently amended to replace "venturi" with "means for drawing gases from said receiving tank and introducing said gases to said aqueous solution" to make Claim 3 appropriately dependent on Claim 1.

Claims 13, 14, and 16-18 are amended by striking "10" and inserting "12" to make them appropriately dependent on Claim 12.

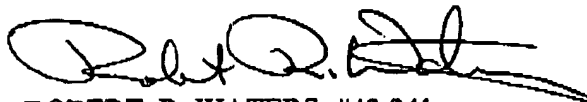

Claim 15 is amended by striking "12" and inserting "14" to make it appropriately dependent on Claim 14.

Claim 12 is amended by striking "acid" and inserting "neutralizing agent" to cite the proper antecedent from step d).

Attached are two terminal disclaimers. One is for the issued patent, U.S. Patent 6,755,029 B2, and one is for the pending application, serial number 10/875,053.

The Applicant hereby respectfully ask that the Application be amended as shown and examined.

Respectfully submitted,

ROBERT R. WATERS, #43,241
